CONTENTS

JOURNAL OF THE JAPAN WELDING SOCIETY
Vol.72 No.4 June 2003

The Address by the President in General Meeting ............................................... TOYODA Masao 3
Welcome to OSAKA ........................................................................................................ KOMIZO Yu-ichi 4

Essay
Welding to Management ............................................................................................... YAMADA Sotaro 6

Engineering Data Sheet ................................................................................................. 8

Technical Information — Special Issue —
For Inclusion in the Special Edition on Accuracy Control for Producing Large Steel Structures ......................................................... KAWANO Takayuki 9
Dominating Factors and Quantification of Welding Deformation ...................................... TERASAKI Toshio 10
Evaluation of Three Dimensional Coordinate Measuring Methods for Large Structures .... SHIMIZU Hideki 14
Challenge to High-grade Accuracy Control during Ship-hull Production ...................... TANIGAWA Masayuki 18
Accuracy Control on Site-Weld of Long Span Bridges .................................................. EGUSA Taku 23

Serial Lecture Paper
Nondestructive Testing of Structural Materials by Infrared Thermography .................. SAKAGAMI Takahide 27

Lecture for Practical Engineer
Monitoring techniques of Laser Welding ........................................................................ SAKAI Katsuhiko 32
Process Monitoring of Laser Welding for Automotive Body .......................................... MORI Kiyokazu 36

SpotLight
Method for Theoretical Analysis of Hot Cracking
— Solidification Cracking in Laser Surface Melted Region of Austenitic Stainless Steel —  MORI Hiroaki 40

Introduction

Calendar of Event ........................................................................................................... 48

Society Announcements ................................................................................................. 49
